AMELIA COMPLETES HER FIRST HOP IN GLOBE-CIRCLING FLIGHT

After loading her "flying laboratory" with its last consignment of mail, Amelia Earhart Putnam boarded her specially designed plane and soared away from Oakland, California, airport, over the San Francisco-Oakland Bay bridge toward Honolulu, who completed her first hop over the Pacific to Honolulu in record-breaking time. These sound pictures were taken at Oakland.

ROUGH SEAS GIVE BRITISH FLEET A "SINKING FEELING"

To the casual observer the four ships of His Majesty's Royal Navy, above, appear to be sinking rapidly into Davis Jones' locker. The picture was taken from the aircraft-carrier Glorious as the combined Home and Mediterranean Fleets plowed through heavy seas in manoeuvres in the Atlantic Ocean. On the right of the picture is the Fleet Flagship, Queen Elizabeth.

ONE OF BRITAIN'S AIRCRAFT CARRIERS WITH HER BROOD

This unusual photograph shows the British "aerocraft carrier" Furious, undergoing manoeuvres in the Mediterranean while some of her brood of Fairey Swordfish planes fly in formation over her.

THE FASTEST LOCOMOTIVE IN FRANCE

This new engine is claimed to be the fastest and most powerful French locomotive the best of a new series. It will be used on the Tours-Bordeaux and the Tours-St. Nazaire lines.

GETTING READY FOR THE ROYAL ACADEMY

Sir Walter Russell, Keeper of the Royal Academy, is shown in his studio at Burlington House, London, working on a picture he intends to submit to this year's Royal Academy Summer Exhibition.

WHEN GERMAN AND AUSTRIAN DIPLOMATS MEET

A diplomatic reception was held in the German Embassy in Vienna when Baron von Neurath visited Austria, and this picture shows the German Foreign Secretary (left) talking with Dr. von Schuschnigg, Austrian Chancellor. Shortly before this picture was taken a Nazi demonstration threatened to cause a delicate situation in Vienna, and several arrests were made.

BRITISH MINISTER TO PARIS HONORED

The International Friendship Association in Paris recently had a luncheon in honor of Sir George Clerk, British Ambassador to France, who is retiring shortly. In this picture Sir George is speaking at a luncheon which was attended by the French Prime Minister, Leon Blum, and members of the cabinet.

FLYING DUCHESS IS MISSING

The Duchess of Bedford, 71-year-old flying enthusiast, who took up aviation eight years ago and is an accomplished pilot, is missing somewhere in the south of England. This picture shows her with one of her friends, with whom she flew to South Africa and back in seven and a half days.

"DISASTER" IN THE TUBE

Accidents happen in the best of circles, as those British Jack Tars soon learned. During a practice run on H.M.S. Rodney a gun occurred in one of the 16-inch guns. It became necessary for a sailor to crawl along inside the barrel, some twenty-four feet, to fix a hook on the charge. The above picture shows the "operation" in progress.

AS AMERICAN HORSE PREPARED FOR GRAND NATIONAL

"Battleship," the American horse sent over to England for the Grand National is shown above winning the Newbury National Selling Chase at Newbury. "Battleship" is going over the last jump with "Blissful," which finished second. The Grand National was won by a rank-outsider, a hundred-to-one shot, Lloyd Thomas' "Royal Mail." Coolen came in second and Pucka Bulla third.

Our Last Great West

By D. E. Harris

Travelling across our western plains, what a tragic sight meets the eye. A great portion of the Prairie Province—where a few short years ago broad acres almost grazed under blanket crops of wheat—now lies waste land, most of the top soil blown away. It is infested with Russian and other thistles or other noxious weeds. Farms are dilapidated and vacant. Barns are strewn with worn-out agricultural machinery, implements, etc.

What an object lesson is all this to the newer and unsettled parts of the West! And the people of our vast Peace River District surely can profit by the lesson.

With so much of the Peace River District still covered with heavy brush and trees—and the knowledge and dread our people from the open plains have of the dangers of the forest—the very salvation of our Peace River, as it will mean safer, cleaner and better cultivated farms, more diversified farming, and more thickly settled districts—instead of farms of the wide acre, worked by power machinery, weed infested, and so sparsely settled that the children are a problem.

And instead of the land being all put under cultivation in a year or two, people who have some brush to clear will have some new land to put under cultivation for years to come. And it has been proven that our heavy grey loam soil with a few inches of top black soil is our very best land. Instead of deterring settlement, the dropping—as the all-black soil usually does—the grey loam seems to grow heavier crops and to hold moisture better than the lighter black soils.

The Peace River District now holds the record for pure wheat grain for all Canada, and it should be guarded jealously. We should guard our farms as we guard this, the Best of the Last Great West.

IN THE TRIBUNE'S MAIL BOX

West Hempstead,
Long Island, New York,
April 1, 1937.

To the Editor of The Tribune:

Once again, I am sending a few words to The Tribune's readers.

First of all, "Hello" to all far and near, high and low.

Most of the news in this part of the world is about murders, killings, accidents, sit-down strikes, etc., but in spite of all the country keeps on going forward.

Even small children help to swell the prevailing tide of news. Just yesterday, in a small town, five times in the afternoon fire trucks appeared. Three started by children playing with matches. With Easter holidays on, these constant fire alarms make driving a car a tough job.

There are certainly plenty of places here to go when seeking pleasure, amusement, any day and hour. Later the summer resorts along the coast of Long Island will open for the summer season. Then orchestras are busy and the casinos, etc., well open.

Many new places are being built, also roads and highways.

One very hot spot is where the 1937 Yonkers Fair is being held. Here an army of trucks, caterpillar tractors, steam shovels, etc., are toiling night and day. The ground where it is to be held at a very low price—only \$14 a front foot.

Yonkers, which belongs to the city of New York, I wish—and probably a great many others also wish the same—that I had about 100 acres of land to sell at such a price.

Taking a ride on the high or other elevator train is no quite an experience. Before you go up you put a nickel in a slot in order to get through the door. Then up you go. As soon as a train stops the door opens automatically, stays open for a certain time and then closes. There are plenty of doors on each car, so a person doesn't have to wait if he waits too long, he will have to wait for the next train, but that is only five to seven minutes.

And say what a great ride.

If you can read, everything is easy to find in the heart of New York City, using a railway track four stories high. First, subway, local and express; second, surface street cars and buses; third, low elevated railway; fourth, high elevated railway. This mixture of trains, street cars and buses makes enough noise to drive a man crazy.

Regarding the use of automobiles, it is said that there is one car for every four persons here. How, then, can all the trains, buses, taxis, etc., make a difference?

Saloonmen selling all kinds of things come to one street daily and there is no need to go shopping, even for few shoes or yellow slips.

During the day a restaurant plan is easy here and at many places no down payment is required. If a person has no income of about \$20 a week he can have full living. Men with experience at a trade are paid from two dollars to five dollars a day, some more.

Spring time is here, but how about the Peace River? Farmers here are very busy putting their crops in, but the farms are not quite as big as those of western Canada.

At the time this letter is printed spring work will be very far along in the Peace River country, so I wish one and all a good prosperous year, 1937.

MAX HIESTERER.

NEED FOR BLENDING

WHEAT GRADES TOLD

TO TURGEON INQUIRY

Farmers Get Higher Prices as Blending Permits Better Merchandising

Exporter Says

By SAM ROSS

(Special Correspondent)

VANCOUVER, April 3.—As a step in development of foreign markets for Canadian wheat, appointment of a wheat market commissioner in London has been proposed to the Turgeon Royal Grain Commission.

Robert McKee, long identified with the grain trade here, made the suggestion in giving evidence last week.

By having a complete and full advertising experts, the commissioner would direct campaigns to develop present markets and create demand in new markets.

Actual sales of the wheat would be left to the grain trade.

John Whittle, Vancouver exporter, advocated blending of grades of wheat to achieve a standard quality. Blending of the lower grades as now permitted by law allowed merchandising and sale of wheat at times and prices to producers, he contended. He termed blending a "service to producers."

Opening the seasons on the Pacific Coast, Hon. K. C. Borden, K.C., Montreal, commissioner counsel, emphasized retention and extension of markets was the major objective of the inquiry.

Interlocking importance of wheat and lumber in development of foreign markets served by exporters through the Grain Exchange, Hon. J. H. Hamilton, secretary of the Vancouver Merchant Exchange and Vancouver Grain Exchange, also emphasized.

Necessity of Canadian wheat being on a competitive price basis with wheat of other exporting countries.

Availability of bulk grain at Vancouver has acted as a stimulus to the extension of the shipping business, which in turn has widened the market for grain.

When grain market here has been extended, so also did markets for other commodities and vice versa, said Mr. Hamilton.

Quoting market surveys, Mr. Hamilton said price was vital factor in sale of Canadian wheat in China. If the Canadian price was higher than Argentina and Australia, Japan's wheat purchases depended largely on the price of Japanese goods bought by the wheat exporting country.

Both Mr. Hamilton and John Whittle, general manager of the Midland Pacific Terminal Ltd., don't see freight rates as a hindrance to successful export of grain.

Mr. Hamilton said that reductions in westward rates had equalized to a considerable extent the rates in the district.

In Vancouver's early days as a port.

Application of the lower freight rate to domestic shipments was urged by W. C. MacLean, Vancouver feed merchant.

He contended both prairie and coast consumers would benefit.
